Appendix

This section describes the criteria and related evaluative procedures to be used by the Accounting Department in assessing faculty performance and qualifications for promotion and tenure decisions. The criteria and evaluative procedures are consistent with the mission and goals of Florida State University and the College of Business, and the Accounting Department, and they comply with and are supplemented by the provisions of the Collective Bargaining Agreement and the Faculty Handbook. Recognizing the integral relation between annual performance evaluation and promotion and tenure decisions, these criteria and procedures will guide annual performance evaluations as well as promotion and tenure decisions. All evaluations must contain a narrative explanation attached to the evaluation summary form.

Section 1: Performance Evaluation Criteria

The Collective Bargaining Agreement and the Faculty Handbook presents specific information and standards which will be used to evaluate teaching, scholarship/research, service and/or administration. The following merit criteria are based on those documents.

Criteria for Teaching:

The purpose of teaching is to impart knowledge and critical thinking skills in the theoretical, practical, and ethical aspects of the accounting discipline. Evaluation of teaching will consider all relevant evidence submitted by the faculty member, including course materials and methodology, special teaching responsibilities and related assignments, student consultations, teaching awards and other recognition, student evaluations, peer evaluations, and other pertinent evidence.

Criteria for Scholarship/Research:

The purpose of scholarship/research is to discover and develop a deeper understanding of knowledge with direct or indirect applicability to the accounting discipline. Scholarship/research is developed through the communication of knowledge through a variety of publication media and oral presentations. Evidence of scholarship/research includes scholarly books, articles in journals, other published works, presentations at professional meetings, and other evidence such as work in progress and working papers.

Criteria for Service:

The purpose of service is to facilitate the accomplishment of departmental, college, university, community, and professional goals. Service incorporates activities which

are not considered strictly teaching or scholarship/research, but which enrich teaching and scholarship/research and benefit the university community and the State of Florida. Evidence of service includes university, college, department, and similar committee service, paid or unpaid service to community groups or organizations, service to student organizations, service to the profession, and service to other groups or organizations that are important to the College or Department.

Criteria for Administration:

The purpose of administration is to facilitate faculty performance in teaching, research, and service. Administration is deemed to be those activities, normally restricted to department chairs or persons whose major responsibilities are administrative rather than teaching or research. Evidence of administrative performance includes external outreach, faculty relations, external relations, leadership, and timely and effective performance of tasks such as scheduling courses, allocating resources, and coordinating program activities.

Faculty performance shall be assessed using the following ratings:

1. Substantially Exceeds FSU's High Expectations
2. Exceeds FSU's High Expectations
3. Meets FSU's High Expectations
4. Official Concern
5. Does Not Meet FSU's High Expectations

A Performance Improvement Plan (PIP) is required when a non-tenured faculty member receives a "Does not Meet FSU's High Expectations" rating. Tenured faculty may be placed on a PIP if they received an overall performance rating of "Does Not Meet FSU's High Expectations" on three or more of the previous six performance evaluations.

Section 2: Evaluative Procedures

The faculty evaluative procedures reflect an annual process which involves a number of steps. The following sections describe these steps, with related responsibilities.

Faculty Assignment of Responsibilities:

Each faculty member will receive a written assignment of responsibilities from the department chair. This assignment will be developed by the department chair in consultation with each faculty member. The completed assignment form will reflect the mix of teaching, research, and service and/or administration assignments upon which the faculty member will be evaluated.

Faculty Performance Report:

During the latter part of the spring semester, each faculty member will complete the College of Business Faculty Performance Report for the preceding calendar year. The various items of evidence relating to performance described above will be included on this report, as well as other important performance information the faculty member deems to be important. The set of Faculty Performance Reports for the department provides the basic information for evaluating departmental faculty.

Merit Evaluation:

Each faculty member's performance will be evaluated relative to his or her assigned duties. The chair and the Faculty Evaluation Committee members will place each faculty member in one of the following merit salary increase categories. Meritorious performance is performance that meets or exceeds the expectations for the position classification and department/unit. In determining merit salary increases, the three most recent years' annual evaluations shall be considered along with corresponding AORs to arrive at an overall assessment on the rating scale used for annual evaluations. For faculty with fewer than three years' annual evaluations, merit assessment shall be based on the years available. No restrictions exist as to how many faculty can be placed in a given category:

1. Substantially Exceeds FSU's High Expectations
2. Exceeds FSU's High Expectations
3. Meets FSU's High Expectations
4. Official Concern
5. Does Not Meet FSU's High Expectations

The recommendations of the Faculty Evaluation committee will be submitted to the department chair. The chair will forward the results of his/her evaluation to the Dean. Merit raise distributions will be determined in dollar amounts, such that the annual evaluation categories of, "Meets FSU's High Expectations", "Exceeds FSU's High Expectations", and "Substantially Exceeds FSU's High Expectations" shall be

awarded raises of X, 2X, and 3X, respectively. The amount of X shall be determined by dividing the total merit funds available to the department by the sum of merit ratings across all faculty where "Meets FSU's High Expectations"=1, "Exceeds FSU's High Expectations"=2, and "Substantially Exceeds FSU's High Expectations"=3.

Professorships and Endowed Chairs:

The Faculty Evaluation Committee will make recommendations regarding the selection of faculty members for professorships and endowed chairs. Such recommendations will be forwarded to the department chair and the Dean.

The Faculty Evaluation Committee will conduct an evaluation for the purposes of recommending a faculty member for a professorship or chair at the request of at least 40% of the committee members.

The Faculty Evaluation Committee will periodically evaluate the performance of professorship and chair holders and make a recommendation to the department chair and Dean regarding retention of the professorship or chair by the current holder. These evaluations will occur whenever at least 40% of the committee members request an evaluation, but at least once every five years. In conducting its evaluation, the committee shall consider the holder's career research productivity, general standing in the field of accounting research, training and mentoring PhD students, as well as publication effort and performance in the last five years. By agreement with EY, the holder of the EY Professorship must be the department chair. Therefore, the evaluation of the EY Professorship must be conducted by the Dean.
